

AXEL CERKVENIH

Application Security Engineer | DevSecOps Engineer | Product Security

Argentina | (+54) 2612780455 | cerkvenihaxel@proton.me

Portfolio: [axelcrkv](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Application Security Engineer with 5+ years of software engineering experience and hands-on expertise securing cloud-native applications and CI/CD pipelines. Proven background in vulnerability management, threat modeling, secure architecture reviews, IAM least-privilege implementation, secrets management, and security automation across AWS environments. Strong ability to bridge engineering and security teams, embedding security controls throughout the SDLC while maintaining developer productivity.

CORE COMPETENCIES

Application Security, DevSecOps, Secure SDLC, Threat Modeling, Secure Code Reviews, OWASP Top 10, OWASP ASVS, Vulnerability Management, SAST, DAST, SCA, CI/CD Security, Cloud Security, IAM, Secrets Management, Incident Response, Security Architecture Reviews, Security Automation

TECHNICAL SKILLS

Cloud: AWS (IAM, WAF, Secrets Manager, S3, CloudFront, API Gateway, Lambda Authorizers, Network ACLs)

Security: Snyc, GitLab Security Gates, Threat Modeling, OWASP, HashiCorp Vault

CI/CD: GitLab CI/CD, GitHub Actions, Bitrise

Languages: Go, Rust, TypeScript, PHP, Python, SQL

Frameworks: NestJS, Laravel, React Native

Infrastructure: Docker, Nginx, Apache, PostgreSQL, MongoDB, MySQL

Monitoring: Grafana, Dynatrace

PROFESSIONAL EXPERIENCE

Personal Pay | Application Security Engineer | Dec 2025 – Present

- Automated SAST/SCA security gates using Snyc and GitLab CI/CD, reducing vulnerability remediation and merge delays by approximately 40%.
- Developed custom GitLab security rules to identify hardcoded secrets and insecure NestJS patterns before deployment.
- Implemented AWS WAF protections, CloudFront security controls, and S3 bucket policies to mitigate OWASP Top 10 risks.
- Enforced IAM least-privilege access models and managed secure cross-account access through AWS Glue integrations.
- Centralized secrets management using HashiCorp Vault, AWS Secrets Manager, GitLab, and Bitrise.
- Conduct vulnerability triage, threat modeling workshops, secure design reviews, and incident response activities.
- Partner with engineering and architecture teams to define secure cloud-native solutions.

Personal Pay | Backend Developer | Jan 2025 – Dec 2025

- Built and maintained scalable NestJS microservices supporting identity-related services.
- Implemented authentication, authorization scopes, rate limiting, and input validation controls.
- Worked with PostgreSQL, MongoDB, and React Native applications.

Agripay | Backend Developer | Aug 2024 – Dec 2024

- Developed Laravel microservices integrated with MySQL and PostgreSQL.
- Automated testing and deployment pipelines using GitHub Actions.
- Containerized applications with Docker and maintained React Native mobile solutions.

Innovus Software | Full Stack Developer | Aug 2023 – Mar 2024

- Delivered enterprise applications using Laravel, Yii2, NestJS, React, and Next.js.
- Managed AWS EC2 and DigitalOcean infrastructure.
- Designed REST APIs implementing authentication, authorization, CORS, and input validation.

Global Médica S.A. | Full Stack Developer | Apr 2022 – Aug 2023

- Led development of a CRM platform serving more than 5,000 users.
- Implemented role-based access controls and secure data management practices.
- Deployed and maintained AWS-hosted services using Laravel, Python, MySQL, and Nginx.

Provincial Government of La Rioja | Full Stack Developer Jr | Jan 2020 – Apr 2022

- Developed public-sector web applications using Laravel, CodeIgniter, and WordPress.
- Supported server hardening, deployments, and secure input handling practices.

KEY SECURITY ACHIEVEMENTS

- Reduced vulnerability remediation bottlenecks through automated CI/CD security controls.
- Implemented enterprise secrets-management workflows across development and production environments.
- Embedded security requirements into engineering processes through threat modeling and architecture reviews.

EDUCATION

B.S. Electronic Engineering & Telecommunications (Expected 2027)
Universidad Tecnológica Nacional (FRM), Mendoza, Argentina

CERTIFICATIONS

AWS Cloud Practitioner (In Progress)
Linux Foundation Certified IT Associate - LFCA (In Progress)
AWS Security Essentials (In Progress)

LANGUAGES

Spanish (Native) | English (Professional Working Proficiency)
